

## BUTCH CLIP – ATP FLIP START

- Remove the 2 screws holding your Stop start housing
  - Place your new clip body mounting holes against the Stop start housing and replace the screws
  - Place in desired position and check clip clicks into place as required- tension can be adjusted with the Nylock nut. Due to bar and button wear variations an extra washer is included, if you need to adjust the height of the clip use this washer.
- Clip moves with the stop start so can be used on any bar the stop start fits on.

**DISCLAIMER**-Product is for competition use & not intended to replace the OEM Lanyard. OEM lanyard must be used where possible.
